Career Objective

With over 5 years of dedicated expertise in IT Business Consulting, I am eager to seize opportunities and drive your business growth through collaborative engagement with both business and technical teams.

Work Experience

April 2023 - Present
**Romanian
Commercial Bank**

IT Business Analyst

Main responsibilities:

Engage in the examination and evaluation of business requirements, which I then transform into comprehensive functional prerequisites and well-defined technical specifications.

Plan and execute each project, aligning both short-term objectives and long-term strategic goals for successful outcomes.

Facilitating effective communication between stakeholders, project managers, and development teams, to ensure seamless collaboration throughout the project lifecycle.

Key Competencies:

- ✓ Business Process Analysis & Optimization
- ✓ Software Development Life Cycle (SDLC) Management
- ✓ Agile Methodologies & Scrum Framework
- ✓ Requirement Elicitation & Documentation
- ✓ Risk Assessment & Mitigation Strategies
- ✓ User Acceptance Testing (UAT)
- ✓ Vendor Management & Contract Negotiation

Softwares I work with:

Jira, Confluence, Figma, Kibana, Postman, Restful API, SQL, MS Office (Word, Excel, PowerPoint, Visio)

January 2022 - April 2023
EY Romania

IT Business Analyst

Main responsibilities:

Act as the main functional liaison between business and technical teams

- Organize workshops to understand business requirements and write user stories
- Create process diagrams (As-IS and To-Be)
- Create technical documentation
- Create test cases for the developed products and acceptance criteria's
- Perform QA and UAT Testing
- Coordinate project teams using an Agile methodology

Softwares I worked with:

UiPath (RPA) tool, Jira, Confluence, Figma, Postman, Restful API, SQL, MS Office (Word, Excel, PowerPoint, Visio)

November 2019 -
December 2021

**BearingPoint
Romania**

IT Business Analyst

Main responsibilities:

Being a member of the Data & Analytics Operations department, I served as the bridge between the business and technical divisions, facilitating seamless communication and collaboration.

- Assumed responsibility for overseeing the company's reporting system, ensuring its efficiency and effectiveness in delivering critical insights and data-driven decision-making capabilities.
- Translating level 3 tickets from a business requests to technical tasks.
- SQL coding for stored procedures updates/changes/enhances.
- Sys Admin for reporting purposes and groups access.

Softwares I worked with:

Azure devOps, SAP, SQL (SSIS, SSRS), MS Office (Word, Excel, PowerPoint, Visio)

August 2017 - May 2019

KPMG Romania

IT Consultant

Main responsibilities:

Identified IT risks and assessment of controls in place to mitigate these risks, as well as the testing of specific IT Controls for various business areas;
Reviewed IT systems' functionality and assessed general IT controls for the purpose of ensuring compliance with applicable legislation.

Consulted and audited clients in different industries (Telecom, Retail, Business development, Manufacturing);

Softwares I worked with:

MS Office (Word, Excel, PowerPoint, Visio), Jira, eAudit
